Record yourself reading the following story, and upload it to LMS. If you read a word you do not understand look it up online or in a dictionary and write it on your notebook, title it **GLOSSARY**.

For the past ten years, my family and I have taken a vacation together every summer. We usually go somewhere different each year, but we have always chosen places where we can relax and spend time outdoors. This year, we have gone to a small cabin near Lake Tahoe, and so far, it has been one of our favorite trips.

Since we arrived, we have done many fun activities together. We have gone hiking in the mountains, have ridden bikes around the lake, and have had several picnics in the forest. My parents have enjoyed the peaceful atmosphere, and my younger sister and I have spent hours swimming in the clear lake water. My brother, who loves fishing, has already caught three trout!

We also have taken lots of photos to remember this trip. In the evenings, we have played board games and roasted marshmallows around the fire. These simple moments have brought us closer together. Over the years, our family vacations have helped us bond, laugh, and make special memories.

Even though the trip is not over yet, we have already talked about coming back next summer. My parents say this vacation has reminded them of how important it is to take a break from work and enjoy time with family.
